Subject: 2012 Detachment 758 Marine Corps League Mess Night

Marines, Corpsman, Veteran's, Friends;

Just a quick note, and a .pdf copy of my very early version of the Mess Night flyer for our upcoming Saturday, 25 February, 2012, Mess Night.

I am fairly certain I will probably edit it a little more, a time or three, But all information as to date, time location, price etc., is correct. And any form of registration we receive, as long as it is legible with payment and received by the deadline, is good for pre-registration. I and the committee hope to see you with us come the last Saturday in February, 2012.

If this is of any interest to you, and/or if your personal schedule allows. you are most welcome to be with us for this memorable evening. If you would be so kind; Please do print out a few flyers, pass them out to people you know would be excited and interested about such an event as this evening, and that are not included with this mailing.

Please feel free to pass this e-mail on, or the event flyer to any Marines, Corpsman, and and other service veteran's that you know. Please Do. I sincerely ask you to please mention it at your January League Meetings (if possible), and certainly please, at your February 2012 Marine Corps League meetings. Don't forget to mention it at your VFW meeting's, American Legion meetings, AmVets, Purple Heart, and any and all other Veteran's organization's.

Marines, Corpsman, Veteran's, Brother's, Sister's, Friends; If it is, that my small bothering of you; in asking you to please help us in promoting our event; If in anyway it helps one Marine, Corpsman, Soldier, Sailor, or Airman, Wounded, Injured, or otherwise in any manner, ranging from the camaraderie that is and will be present that evening, to that person connecting with a Veterans Service Rep, or a WWR contact, or a Jobs, and Family Service representative, (all of whom; we are of the belief, will be present that evening. Perhaps not in their official capacity that evening, but on-board), but I am certain there will be much contact and networking going on. That is not the sole reason for this event, but it

is truly becoming yearly, a larger part of it.

I sincerely apologize if it so happens that you receive this mailing from me more than once or twice. I do send out many, many mailings of limited size so that they will pass through security filters and firewalls. And you might be on a couple of them, and I just don't notice that a re-repeat sending is going to occur.

I look forward to having you join with us, if your circumstances will permit.

Happy New Year to you, and to your families and loved ones.

Question's Call me please, or e-mail me.

Thank you, and again All the best to you, to us all in the New Year.

Semper Fidelis

Kenneth A. Steffel
